Welcome to DUBAI SCHOLARS PRIVATE SCHOOL Extra-Curricular Activities | ECA

The "Program" offered under ECA (Extra-Curricular Activities) is distinct from the regular school curriculum, providing students with the chance to take part in additional activities. Whether their aim is personal enjoyment, skill enhancement, or the pursuit of a certified qualification, this opportunity enables them to partake in a range of valuable and diverse experiences.

“ECA for skill advancement,
certified qualification and
valuable experiences”

Coding is the driving force behind the creation of computer software, apps, and websites. From your browser and operating system to the apps on your phone, Facebook, and even this very website – all these innovations are brought to life through code. Coding empowers young individuals to cultivate creative thinking, systematic reasoning, and collaborative work, all of which are indispensable skills for thriving in the 21st century.

Utilizing tools such as Scratch Junior, Scratch 2 (developed by MIT Media Lab), and numerous others, participants can delve into programming their own interactive stories, games, and animations – and seamlessly share their imaginative creations within the online community.
